CAREER OBJECTIVE

Aspiring Software Development Engineer with strong foundations in programming, data structures, algorithms, full-stack development, and machine learning. Seeking an opportunity to contribute to high-impact software solutions while continuously enhancing technical expertise in a professional environment.

EDUCATION

B.E. in Computer Science and Engineering

Sri Krishna College of Engineering and Technology (SKCET)

CGPA: 8.7 / 10

2024 – 2028

SKILLS

- **Languages:** C++, Java, Python
- **ML & Data:** NumPy, Pandas, Scikit-learn, Probability & Statistics, Linear Algebra
- **Web & Backend:** React.js, Spring Boot, REST APIs, HTML5, CSS3
- **Database & Tools:** MySQL, Git, GitHub, VS Code

PROJECTS

Campus Recruitment Management System - (Spring Boot, React.js, MySQL, REST APIs)

- Developed REST APIs for student registration, job postings, and interview scheduling
- Implemented **JWT-based authentication and role-based access control**
- Designed scalable backend architecture using Spring Boot (Controller–Service–Repository pattern)
- Optimized database queries for efficient data handling

Salon Management System - (React.js, Spring Boot, MySQL)

- Built role-based login system for admin and users
- Integrated frontend with backend REST APIs for smooth data flow
- Developed responsive UI for better usability

INTERNSHIP

Web Development Intern - Infosys (Virtual Internship) | Sep 2025 – Nov 2025

- Built responsive tourism website using React.js
- Created reusable UI components for maintainability
- Improved UI performance and user experience

Java Full Stack Developer Intern - HGRD Edu Tech | Jan 2026 – Feb 2026

- Developed authentication and user management modules using Spring Boot and React.js
- Integrated frontend with backend REST APIs
- Collaborated in Agile team of 8 developers
- Performed testing and debugging for application stability

CERTIFICATION

- Data Structures and Algorithms – Infosys Springboard
- Java Programming – Advanced OOP, Multithreading, Collections (Infosys Springboard)
- Frontend Development with React – Components, Hooks, State Management (freeCodeCamp)
- Backend Development with Spring Boot – RESTful API Development (Udemy)
- SQL and Database Management – Query Optimization and Database Design (Coursera)
- Git and Version Control – Branching Strategies and Collaborative Workflows (Coursera)
